they are all posted to the epaosc website. I don't send any emails, we have just been posting the summary reports in the am as they become available. If they are not there by 10am for the previous day please call me. Thanks

Where is our data being posted? Anywhere? Mark H said there would be an email with the data, but I haven't seen anything like that. If you have an email group for that, would you please put me in? Thank you so much! Carmen
